The equipment is broken down into four components :

- A reception area for the trainees and management area for the training centre
- A tertiary area with annex areas, to prepare the crews for the Full Flight Simulator (FFS) tests, and classrooms
- The 4 flight simulators area with 4 possible extensions
- Technical facilities to support the full flight simulators and technical facilities for the building, including the technicians' rooms.

Scope of Service :

- Program phase
- Preliminary design (20 % design effort)

These areas are supplemented by outdoor spaces : parking.
