## Airbus Asia Training Centre - Singapore

**Client :**

**Airbus Group**  
1 rond point Maurice Bellonte  
31700 Blagnac  
France

**Consortium :**

Airbus Asia (JV Airbus group / Singapore Airline) built a **Training Centre** in order to train airline pilots on the Seletar Site in Singapore.

Scope of Service :

**General Constructor :**  
M+W Group

**Designers :**

Engineering :  
Serige – Setec Group

This building enables pilots to be trained on Airbus aircrafts, through both theory and practice on flight simulators.

- Program phase
- Preliminary design (20 % design effort)
- Technical assistance for a design and builder call of tender
- Detail design check

**Project Amount :**

13 M € VAT Exc.

The equipment is broken down into four components:

- A reception area for the trainees and management area for the training centre
- A tertiary area with annex areas, to prepare the crews for the Full Flight Simulator (FFS) tests, and classrooms
- The flight simulator area, in which can fit 10 flight simulators with three possible extensions that could each fit 2 Full Flight Simulators (FFS), expandability up to 16.
- Technical facilities to support the full flight simulators and technical facilities for the building, including the technicians' rooms.

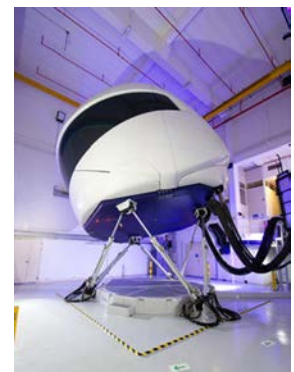

**Area :**

8,600 sqm

**Duration :**

2014 - 2015

These areas are supplemented by outdoor spaces: parking, delivery zones...
